How much does a solar battery cost?

Adding an energy storage battery to a residential solar panel system typically costs \$7,000 to \$18,000. Some smaller batteries cost just a few hundred dollars, while premium systems can exceed \$30,000. The final price depends on what you buy and who installs it. This guide breaks down solar battery costs in plain language.

How much does a solar system cost?

Switch to solar with a system built for you. Adding an energy storage battery to a residential solar panel system typically costs \$7,000 to \$18,000. Some smaller batteries cost just a few hundred dollars, while premium systems can exceed \$30,000. The final price depends on what you buy and who installs it.

Are solar batteries worth it?

The benefits of solar batteries aren't purely financial. Many homeowners value the peace of mind that comes with backup power. Without a battery, grid-tied solar panels automatically shut down during blackouts for safety reasons. This leaves you without power even though you have solar panels on your roof.
