Are Huawei & Sungrow leading the global inverter market?

" Huawei and Sungrow ranked first and second in the rankings for the 10th consecutive year, combining for 55% of the global inverter market." Total global inverter shipments reached 589 GW (AC) in 2024, up 10% from 2023.

Which PV inverter suppliers are based in China?

Nine of the top 10 PV inverter suppliers are based in China. Huawei and Sungrow retained the top two positions for the 10th consecutive year, together accounting for 55% of the global market. Both companies achieved their highest ever market shares in 2024, said Joseph Shangraw, research associate at Wood Mackenzie.

What is the global PV inverter market share?

Global PV inverter shipments grew by 10% to 589 gigawatts alternating current (GWac) in 2024, according to Wood Mackenzie's Global Solar Inverter Market Share Report 2025. The research placed Huawei and Sungrow in the first and second positions in the rankings for the 10th consecutive year, together accounting for 55% of the global inverter market.

What will China's solar inverter industry look like in 2024?

In 2024, China's solar inverter industry remains a global powerhouse, with manufacturers setting new standards in innovation, efficiency, and cost-effectiveness. The top 10 inverter manufacturers in China, including leaders like Sungrow and Huawei in grid-tied sectors, showcase advanced technology and diverse products.

It builds a product ecosystem centered on solar inverters, charge controllers, and energy storage to promote sustainable and efficient utilization of solar energy.

After years of industry reshuffle, the Matthew effect has become prominent, and the global inverter market has shown a dual-leading pattern in 2021. From the perspective of the 2021 pattern, Sungrow ...

Chinese conglomerate Huawei was the world's largest inverter supplier in 2024, followed by Sungrow, Ginlong Solis, Growatt, and Sineng. New figures from Wood Mackenzie shows that nine ...

The research placed Huawei and Sungrow in the first and second positions in the rankings for the 10th consecutive year, together accounting for 55% of the global inverter market.
