---

The product is mainly applicable to the power grid with rated voltage of 400V and below and AC frequency of 50Hz. It is installed in the low-voltage end of ...

Here you can find your UPS installation manual, UPS operation manual, and UPS technical specifications, and you can also find installation manuals for your auxiliary products and options.

The SOETECK Utility Power Distribution Cabinet designed for power systems up to 4000A and voltage levels of 380V (400V) to 600V provides a robust solution for ...

400V Junction Cabinet Product Advantages Non-Walk-In design with less footprint Easy installation and O&M Support installation against wall

GGD series AC low-voltage power distribution cabinet is suitable for the use in power plants, substations, industrial and mining enterprises, etc. as AC50Hz, rated working voltage 400V, rated ...

GGD low voltage switchgear, with 400V rated voltage and up to 4000A operating current, provides reliable power distribution and control for power plants, substations, and industrial applications.

Highly efficient, modular, high-density 400kW (400/480V) 3-phase UPS that is scalable up to 500kW. It delivers top performance for medium, large, and edge data centers, as well as critical infrastructure ...

The product is mainly applicable to the power grid with rated voltage of 400V and below and AC frequency of 50Hz. It is installed in the low-voltage end of transformer with outdoor capacity of ...
