What is a development plan for the Yangtze River economic belt?

The issuance of the "Outline of the Development Plan for the Yangtze River Economic Belt" signifies that the Yangtze River Economic Belt has officially become a major national strategic development area and is an important engine that will lead China's economic development in the future.

Can urban resilience be evaluated in Yangtze River Delta urban agglomeration?

We employed a PSO-ELM (Chu et al., 2018) based on TOPSIS to evaluate the urban resilience of the Yangtze River Delta urban agglomeration. Once we obtained a comprehensive evaluation value, we entered it into the ELM as a prior sample for training and testing.

How much pollution is affecting the Yangtze aquatic ecosystem?

The amount of discharge increased at an alarming rate from 15 billion tonnes in the 1980s to 33.9 billion tonnes in 2010, causing unprecedented destructive impact on the Yangtze aquatic ecosystem (Wong et al., 2007; Ting, 2011).

We identify the major challenges faced by the industrial parks in the region and then propose policy implications targeting eco-transformation of the parks. The key findings are as follows.

This study discusses how carbon constraints and industrial structure upgrading affect green total factor productivity by using benchmark regression ...

This book focuses on the level of industrial synergy development of the Yangtze River Economic Belt in China.

We identify the major challenges faced by the industrial parks in the region and then propose policy implications targeting eco-transformation of the ...

This paper not only widens the theoretical research domain of industrial structure upgrading but also provides practical guidance for the restructuring and transformation of industries ...

Based on data from China and 80 countries belonging to the Belt and Road Initiative (BRI) for the period
