How many ASEAN power grid interconnectors will be built by 2040?

The ASEAN Interconnector Masterplan Study III identified 18 new and existing interconnectors to more than double interconnector capacity from the current 7.7 gigawatts by 2040. Several proposed ASEAN Power Grid subsea interconnectors would be the longest to date, and among the largest in terms of capacity for subsea projects, globally.

What is the ASEAN Power Grid Advancement Programme (APG-AP)?

The ASEAN Power Grid Advancement Programme (APG-AP) is a strategic initiative designed to enhance regional energy security, affordability, and sustainability by advancing multilateral power trade and strengthening the APG.

How does ASEAN contribute to energy security and sustainability?

Diverse Energy Resources: ASEAN possesses a wide range of energy sources, from fossil fuels to renewables, but unevenly distributed across countries. Need for Regional Cooperation: Energy security and sustainability necessitate integrated planning and interconnection among ASEAN member states.

How much does electricity cost in ASEAN?

power trade is high at US\$0.0621/kWh. Generally, it is said that transmission and distribution charges are around 30% of electricity tariff. Electricity tariff in ASEAN countries are around US\$0.1/kWh, so transmission and distribution charges will be around US\$0.03/kWh. Therefore, it is clear that the transmission and distribution /k

The ASEAN Power Grid has reached a milestone by implementing the first multilateral power trades from Lao PDR to Singapore and is preparing to move to a higher level of integration.

This positions ASEAN, which comprises 10 members - Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic (PDR), Malaysia, Myanmar, the ...

The ASEAN Power Grid Financing (APGF) Initiative is a flagship regional effort to create an integrated transmission network towards an accelerated development of renewable energy ...

imize its renewable energy potentials. To this end, cross-border power lines, the ASEAN Power Grid (APG), need to be strengthened to connect the untapped renewable energy resources to ...
