People often ask for a definitive UKSF kit list, but it's not that easy to be definitive - even if you've been researching it for years. In the wild, different ...

As for downsides of black, others have covered it - unless you're speedsofting where everyone does black and an accent, you'll stand out on every field ...

Yes and no. Black can blend in to dark shadows from further away, but the closer you get the more the eye is able to distinguish shapes and colors and blends less to shadows

You can go with black gear from any manufacturer and it will match up and create a kit that looks professional despite being compiled from multiple manufacturers.

You can go with black gear from any manufacturer and it will match up and create a kit that looks professional despite being compiled from multiple ...

People often ask for a definitive UKSF kit list, but it's not that easy to be definitive - even if you've been researching it for years. In the wild, different kit is worn for different missions and AO's ...

I play a particular field most often, which combines a woodland and buildings/containers together, I wouldn't say the buildings are big, but you can't see me inside the containers or pill boxes in ...

The right kit can make all the difference in properly and efficiently processing game in the field. But with so many options on the market, it can be overwhelming to find the best one.
