What is Integritas industrial DC power system?

The Integritas Industrial DC Power System family combines AC/DC power conversion, battery charging, and power distribution into an integrated package.

What is a DC power system?

A complete DC power system with distributed power output and battery backup all included in one unit. Two types available: Type 1 which combines DC power and batteries into a single cabinet, and Type 2 where batteries are separate (for larger systems). Primary DC output voltages in 24V, 48V, 125V, or 240V classifications.

What is AC/DC power rectification?

AC/DC power rectification using modular SMRs offers redundancy and expandability. Integrated DC distribution eliminates the need for a separate distribution panel. Battery charging with battery circuit breaker included. Provides complete DC uninterruptible power supply (UPS) functionality.
