What is Japan's energy storage policy?

As policy, technology, and decarbonization goals converge, Japan is positioning energy storage as a critical link between its climate targets and energy reliability. Japan's energy storage policy is anchored by the Ministry of Economy, Trade and Industry (METI), which outlined its ambitions in the 6th Strategic Energy Plan, adopted in 2021.

Can storage technology solve the storage problem in Japan?

THE RENEWABLE ENERGY TRANSITION AND SOLVING THE STORAGE PROBLEM: A LOOK AT JAPANThe rapid growth of renewable energy in Japan raises new challenges regarding intermittency of power generation and grid connection and stability. Storage technologies have the potential to resolve these issues.

Why is Japan investing in utility-scale energy storage?

Increased investment in utility-scale energy storage. **JAPAN'S RENEWABLE ENERGY TRANSITION**Since 2012, the Japanese government has actively championed renewable energy as an environmentally friendly power source, resulting in renewable energy becoming a significant portion of the country's power supply.

What is Japan's Strategic Energy Plan?

The Government of Japan formulates the Strategic Energy Plan under the Basic Act on Energy Policy to show the basic directions for Japan's energy policies. The Advisory Committee for Natural Resources and Energy started discussions on the Seventh Strategic Energy Plan in May 2024 and presented the draft version of the plan on December 17, 2024.

Under the agreement, Jinko Power Storage will deliver 21 units of its SunGiga 215 kWh commercial and industrial (C& I) liquid-cooled energy storage systems, with a total project capacity of ...

Current Japanese laws and regulations do not adequately deal with energy storage, in particular the key question of whether energy storage systems should be regulated as a 'generator' or 'consumer'; of ...

The growth in installed and planned renewable energy generation capacity has driven developers and utilities to evaluate energy storage as a potential solution to intermittency challenges for grid ...

The Ministry of Economy, Trade and Industry (METI) hereby announces that a Cabinet Decision was made on the Seventh Strategic Energy Plan on February 18, 2025, today, following the ...

Japan s integrated energy storage cabinet mobility agreement
