What is solar power in Kenya?

SOLAR for every city and village in Kenya A solar power system that utilises both solar energy and battery storage to provide power to your home or business. Practical and affordable solution used to provide reliable and cost effective water supplies where there is no grid power or where power supply is unreliable.

How many solar systems are installed in Kenya?

Founded in 2003, this Nairobi-based company has installed over 3,000 solar systems across Kenya, from modest homes to sprawling commercial setups. Their secret? A highly trained team and a knack for tailoring solutions--whether it's a grid-tied system to offset KPLC bills or an off-grid setup for remote areas.

How can solar energy help in Kenya?

Cut out the power cuts. For good. Power cuts are a part of life in Kenya, and you have to schedule everything around the possibility of a power outage. With solar energy, there are no more power cuts. The sun is always shining. And when it is not, alternate back-ups are available. Work never comes to a stop.
