Can Norwegian companies and NGOs help the Emergency Relief Sector?

The capacity of the international system is not always adequate to meet these needs. Norwegian companies and NGOs can give valuable contributions to the emergency relief sector and Norwegian goods, services and personnel can be delivered at quality and price that is comparable with others.

Should Norwegian supplies be prioritised in emergency relief?

At one point, the Minister was very clear in opposing the former government (Labour Party) - use of Norwegian supplies in emergency relief should not be prioritised. The NOREPS mandate that was created specified that efforts to link humanitarian activities to local production of emergency equipment should be prioritised.

What is the purpose of a Norwegian emergency response evaluation exercise?

As the main purpose of the evaluation exercise is to generate knowledge and understanding to inform decisions for assuring an appropriate Norwegian system for emergency response it is of primary importance that the stakeholders are involved in a satisfactory manner all along. 8. Reporting

Should Norwegian relief goods be discontinued?

Norway relief goods have been effective in the past in saving lives in emergencies. Any sudden ending of MFA support for Norwegian manufacturers puts the continued presence of Norwegian suppliers in the market at risk and would reduce the overall capacity of the system to respond to humanitarian emergencies.

The public warning alarm system (air-raid sirens) may be used to warn the population of acute imminent danger. This means that you need to seek information if an alarm sounds.

NOREPS is a public private partnership between the Norwegian Ministry of Foreign Affairs, the Directorate for Civil Protection and Emergency Planning (DCPEP), the Norwegian Red Cross, major ...

Newspaper clippings and document reviews are used to study two emergency reception structures: a Cold War multipurpose mountain hall close to the Norway-Russia border and a ...

16 years after the Norwegian Emergency Preparedness System (NOREPS) was created, and eight years since the programme was last reviewed, a need was felt for a thorough look at how NOREPS ...
