What are IP enclosures?

All IP Enclosures electrical enclosure are fully designed and tested to international standards, including IEC/EN 62208, IEC/EN 61439, and IEC/EN/AS 60529. With protection ratings up to IP66 and impact resistance up to IK10, our enclosures provide maximum defence against dust, water, and mechanical impact.

What materials do IP enclosures offer?

Steel. Stainless Steel. Aluminium. IP Enclosures offers a 5-year warranty across the full range of electrical enclosures, electrical cabinets and data racks. Tested to international standards and trusted in demanding applications, this warranty reinforces our commitment to long-term protection and reliability.

Which electrical enclosures are rated for IP55 protection?

The S2 range of electrical enclosures are rated for protection up to IP55. This range is wall-mounted, powder-coated galvanised steel, double door construction suitable for heavy duty applications. Powdercoated RAL7035 (Other colours available upon request) The robust monoblock body is fabricated using 1.5mm galvanised steel sheet.

What are IP67 waterproof enclosures?

IP67 waterproof enclosures - for temporary immersion in water. IP protection is supplied either as standard or as an option by specifying the relevant sealing gaskets as accessories, as on our handheld enclosures. For a detailed explanation of ingress protection standards, see our IP ratings chart IP rated enclosures for OEM electronics.
