What is the market size of solar energy storage?

The market size for solar energy storage reached USD 46.7 billion in 2022 and is set to witness 15.6% CAGR from 2023 to 2032 due to the rising introduction of stringent regulations to promote environment sustainability. What is the value of the 2,501 to 5,000 kW solar energy storage industry?

Is the solar business struggling?

Despite the growth in energy storage, the solar side of Tesla's business is not booming. Solar deployments declined in the fourth quarter, with demand negatively impacted by high interest rates and seasonal weakness in solar energy generation.

How did Tesla's Solar business impact its profit growth?

Tesla's profitability in the quarter was negatively impacted by lower deployments and seasonal weakness in solar energy generation. Despite this, Tesla highlighted the combined profit growth of storage and solar, which is a bit odd since it was just storage that grew while the solar business declined.

What happened to Tesla's Energy Storage business in 2024?

In 2024, energy storage deployments surged, and gross profit from the segment hit new highs. And momentum hasn't slowed. Based on Tesla's first-quarter 2025 results, the division is on pace for another record-breaking year.

In 2024, energy storage deployments surged, and gross profit from the segment hit new highs. And momentum hasn't slowed. Based on Tesla's first-quarter 2025 results, the division is on ...
