Supports various control modes, including peak shaving, demand management, light storage, and charge control. Enables high-speed scheduling and remote data access via Wi-Fi, 4G, 5G, or ...

Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for an install friendly plug-and-play commissioning with easier maintenance capabilities. Each outdoor cabinet is IP56 ...

Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for an install friendly plug-and-play commissioning with easier maintenance capabilities. Each outdoor cabinet is IP56 constructed in a ...

Based on market demand, we have developed two different liquid cooling solutions specially designed for Li-ion Battery Energy Storage Outdoor Cabinets: Both solutions safely operate in cold and hot ...

Our 233/250/400kWh Liquid-Cooled Outdoor Cabinet Energy Storage System integrates an advanced energy management system that monitors battery status in real-time and optimizes ...

As a DC-coupled solution, it connects directly to the solar array and external PCS, minimizing energy loss during conversion and maximizing system efficiency. ...

As a DC-coupled solution, it connects directly to the solar array and external PCS, minimizing energy loss during conversion and maximizing system efficiency. Ideal for peak shaving, load ...

Experience enhanced performance and smart thermal management with the Sunway 100kW/261kWh Liquid-Cooled Energy Storage System.
