The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and ...

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

Combines battery storage, inverter, and energy management in a single unit for easy installation and operation. The low-voltage single-phase system is tailored for home applications, ...

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

100kW/215kWh LFP energy storage system, and a generator set. The hybrid energy storage system adopts integrated design, the battery and the MPS series hybrid inverter, which contains PCS ...

In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from single asset control to complex microgrid and utility environments.

First Philec is a leading energy storage manufacturer located in the heart of Manila. Since its establishment, First Philec has been dedicated to delivering top-quality ...
