---

Advanced solar energy storage with ultra-safe LiFePO<sub>4</sub> or Sodium-ion batteries. Features triple-layer fire protection, seamless off-grid switching, hybrid operation support, IP54 weather resistance, and ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on ...

Our 50KW/100KWH outdoor cabinet energy storage system, with its excellent performance and thoughtful design, is the ideal choice for outdoor energy storage applications.

Advanced solar energy storage with ultra-safe LiFePO<sub>4</sub> or Sodium-ion batteries. Features triple-layer fire protection, seamless off-grid switching, hybrid operation support, IP54 weather ...

Through the combination of advanced LiFePO<sub>4</sub> batteries with smart battery management and compact design, it offers safe, reliable, and scalable energy backup for mission-critical applications.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable ...
