---

Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more here.

The Emirati state-owned renewables developer Masdar has begun construction on a giant solar-plus-storage project in Abu Dhabi.

Saudi Arabia will become the main force in energy storage construction in the Middle East. At present, SunGrow, Huawei, BYD, and SmartPropel Energy have won bids for the ...

We highlight the rise of standalone projects against hybrid solar-plus-storage systems, emerging government tenders, and key initiatives like the Red Sea Project and the South African ...

Two major Middle East and North Africa (MENA) region projects combining solar PV and battery storage have progressed in Saudi Arabia and Egypt through ACWA Power and Scatec, ...

Two major Middle East and North Africa (MENA) region projects combining solar PV and battery storage have progressed in Saudi Arabia and ...

As the world accelerates toward a sustainable energy future, the Middle East, long synonymous with oil and gas, is emerging as a powerhouse in energy storage innovation. The ...

The report includes scenario analyses for Saudi Arabia, UAE, Israel, and South Africa and a broader overview of trends across the rest of the MEA region.
