Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate ...

Available in 232kWh and 261kWh capacities, this system is ideal for use in microgrids, off-grid energy solutions, and hybrid power systems. With advanced liquid-cooling technology, it ...

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and ...

The SolaX ESS-TRENE is an all-in-one C& I energy storage cabinet, in liquid cooling model. Equipped with high-performance LFP cells, advanced energy ...

Fast charging for long-distance travel on highways and expressways. Commercial charging hubs in urban and business districts. Public and private parking lot charging solutions. Dedicated charging ...

It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure reliable operation and long lifecycle performance. Fully pre-assembled, it offers fast installation and ...

Designed for multiple scenarios, they are ideal for urban buildings, communities, and low-voltage networks, featuring highly integrated liquid-cooled Commercial & Industrial (C& I) energy ...

Designed for multiple scenarios, they are ideal for urban buildings, communities, and low-voltage networks, featuring highly integrated liquid-cooled Commercial ...
