Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, ...

When paired with photovoltaic systems, these cabinets solve the "duck curve" problem - storing excess daytime energy for evening use. A recent project in Arizona saw 35% reduction in grid ...

In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from single asset control to complex microgrid and utility ...

The MOBICELL-15K is a modular three-cabinet clean power system engineered to replace diesel generators for backup and mission-critical power. Ideal for telecom, industrial and remote off-grid ...

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO4 technology with modular design and robust safety architecture. Our solutions are engineered for long-term ...

In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...
