What will be New Zealand's First Utility-scale battery energy storage system (BESS)?

Our team of experienced civil engineers continue to work tirelessly to ensure the successful construction of the battery site in Huntly. This will be New Zealand's first utility-scale battery energy storage system (BESS) and the largest battery storage facility in the country.

What is New Zealand's new battery energy storage system?

This will be New Zealand's first utility-scale battery energy storage system (BESS) and the largest battery storage facility in the country. It will mean a huge reduction in emissions in the Waikato, supporting New Zealand's Net Zero goal of becoming 100% renewable before 2030.

What is the NZ battery project?

40 The NZ Battery Project aims to reduce New Zealand's greenhouse gas emissions and, hence, contribute to global emission reduction and net climate benefit. Any large-scale hydro development requires balancing its impacts against benefits. 44 Lake Onslow is also an important cultural, social and landscape asset.
