Note I previously suggested blank instead of _blank because, if used, it"ll open a new tab and then use the same tab if the link is clicked again. However, this is only because, as GolezTrol ...

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What problems ...

It is NOT "bad" to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn"t check its execution context then it won"t notice that "this" ...

To do this, define a new class that inherits Exception, add all four exception constructors, and optionally an additional constructor that takes an InnerException as well as additional information, and throw ...
