Renewable energy firm Ameresco has announced a partnership with St. John's College in Santa Fe, New Mexico to execute a comprehensive solar and energy efficiency project.

Overseen by architecture firm Kezlo Group and installed by Solar Energy Services, a Johnnie-led local energy company, the array is slated for completion in 2026.

While the solar panels set the campus apart from most traditional Pueblo-style designs in Santa Fe, the change isn't just visual. There are obvious cost-saving benefits to St. John's solar ...

The solar photovoltaic energy project will consist of approximately 1,800 solar modules that will produce an anticipated annual energy production of ...
