Why should you choose North American power as your energy supplier?

Customers used to only receive electricity and natural gas supply from their local utility, but thanks to energy choice, customers have the power to choose more than just a great rate. Join the 1 million+ who've chosen North American Power as their energy supplier. New to choosing your home's energy rate?

Does North American power supply electricity to homes and small businesses?

North American Power supplies electricity to homes and small businesses. Did you know you can choose your home's or business's electricity supply rate?

How does North American power work?

The only thing that changes is the rate you pay and the energy supplier listed in the supplier section of your bill. Here's how it works: As an independent energy supplier, North American Power purchases electricity on the wholesale market, and creates a selection of plans for you to choose from.

How do I get my new North American power electricity supply rate?

You can shop directly on our website, and enroll online or over the phone. Once enrolled, you can expect to see your new North American Power electricity supply rate on your bill generally within 1 to 2 billing cycles. Look for our name in the "supply" section of your monthly bill.

There's no interruption in service, and no equipment or service visit needed. The only thing that changes is the rate you pay and the energy supplier listed in the ...
