How much solar power does North Macedonia have?

MW facility completed by Mey Energy. North Macedonia enjoys high solar irradiation (1,200 kWh/kWp/year) and abundant degraded land, giving it an estimated technical potential above 5-10 GW for PV11 12. The government's initial goal to add 400 MW of solar by 2024 has effectively been met, and new targets envision 1 GW+

Does North Macedonia still have a coal power plant?

The smaller coal power plant, "REK Oslomej," which was dormant through 2020, was reactivated in 2021 to help North Macedonia reduce its reliance on electricity imports. ESM refurbished the "REK Bitola" coal power plant boilers in 2017, but its equipment is still largely outdated.

What projects are planned in Macedonia?

Former mining land. KEY PROJECTS INCLUDE: Stipion Solar PV Park: A 350 MW project under development by Akuo, planned in Eastern Macedonia. Construction is expected to commence in 2026, with commercial operation in 2027. Amzabegovo Solar Farm: A 17.5

What does Okta do in North Macedonia?

OKTA primarily operates as an oil trader in North Macedonia. North Macedonia welcomes investments in the energy sector. The government invites companies to design, build, and operate new large and small hydro power plants, wind, solar, and biogas farms.

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid infrastructure and ...

North Macedonia welcomes investments in the energy sector. The government invites companies to design, build, and operate new large and small hydro power plants, wind, solar, and ...

This report, "North Macedonia Renewable Energy Market - 2025 Update", has been produced by Invest In Network as part of the Energy Week Western Balkans 2025 framework.

The continued growth of solar power and the development of storage capabilities will play a decisive role in securing North Macedonia's energy independence and promoting a sustainable ...
