Where are Powerplus energy cabinets made?

PowerPlus Energy cabinets are designed and manufactured in Australia for the world's harshest conditions to be a crucial part of an overall simple, flexible and reliable energy storage solution. 2. Safety Installers and users are responsible for familiarising themselves with this manual.

Can Powerplus energy cabinets be shipped on a pallet?

PowerPlus Energy's cabinets can be large and heavy and should be shipped in the original manufacturer's packaging and secured to a pallet. Cabinets should not be top loaded and care afforded to ensure no damage occurs from fasteners. All cabinets from PowerPlus Energy are designed to be transported empty of batteries and heavy PCE.

How many P series batteries can be installed in a cabinet?

DC isolator, main DC busbar and all interconnecting battery cables are provided and should be installed to suit your layout inside the cabinet. Up to 6 P Series batteries can be installed on the lower shelf, and an additional 6 P series batteries on the upper shelf.

What if a Powerplus Energy Cabinet is damaged?

All cabinets from PowerPlus Energy are designed to be transported empty of batteries and heavy PCE. A damaged cabinet should not be used and should be returned to PowerPlus Energy or disposed of via a recycling facility.
