What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is a Delta OUTD cabinet?

Available in different configurations, Delta OutD cabinets are designed to protect equipment from external threats in all climates from the tropics to the arctic. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management.

What is a multitenant outdoor cabinet?

Vikior's multitenant outdoor cabinets enable multiple operators or equipment types to share the same protected infrastructure. Segmented internal layouts and isolated compartments ensure electrical and thermal separation, making them ideal for shared telecom or co-location sites. Get technical specifications and pricing tailored to your project.

What are Delta's hybrid systems?

For systems designed for EMEA and SA, Delta has developed two new hybrid solutions. Both hybrid systems, a combination of AV+AC and a combination of HEX+AV, lower operational as well as capital expenditure.

Power cabinets in hybrid systems ensure reliable energy flow, protect telecom equipment, and optimize renewable energy use for cost and eco benefits.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets. Modular capability helps future ...

Constructed from corrosion-resistant materials and tested for wind load, impact, and thermal cycling, our enclosures guarantee reliable field performance even under severe environmental conditions.

Canovate Hybrid outdoor enclosures offer a compact, all-in-one solution for telecom, integrating OLT, power, fiber, and cooling.

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to ...
