What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

What types of outdoor enclosures does Aze offer?

AZE offers a comprehensive range of outdoor enclosures for virtually any installation. Designed to NEMA Type 3R, NEMA Type 4 or IP rating requirements, our outdoor cabinets and enclosures protect equipment from harsh environmental conditions.

Are Aze outdoor enclosures rated NEMA 3R rated?

Built to be tough and dependable, AZE's outdoor enclosures rated NEMA 3R offer ventilated options. This does reduce the protection against windblown dust, but this protection can be enhanced by using screens and/or air filters placed in the louvered openings. NEMA 3R enclosures offer superior protection in both indoor and outdoor environments.

Why should you choose armorlogix outdoor enclosures?

Efficient outdoor enclosures ensure reliable performance and longevity under harsh weather. ArmorLogix is a leading manufacturer of outdoor enclosures with decades of experience creating turnkey solutions across industries. We optimize our weatherproof enclosures to save you time and money with premium cooling, insulating, and security features.

We provide superior outdoor enclosures that are ready for installation. Fill out our registration form or call us at 904-674-2976 to learn more about our products and customization services.
