Wisconsin has launched a groundbreaking project that could reshape how the state generates and uses electricity. The Paris Solar-Battery Park in Kenosha County combines a massive ...

While tourists joked about athletes needing portable generators, France's energy sector was already sprinting toward a solution: large-scale energy storage power plants.

Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. It's comprised of around 12,000 lithium-ion ...

(WGTD)---The 200 megawatt solar farm in the Town of Paris is now complete. The site began producing power last December, but the battery park went online this week. It's the state's first ...

PARIS -- A historic energy project is now live in Kenosha County, and it's charging up Wisconsin's future. We Energies has officially launched the ...

(WGTD)---The 200 megawatt solar farm in the Town of Paris is now complete. The site began producing power last December, but the battery park ...

Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. It's ...

This project is proposed by an independent power producer, Paris Solar Farm, LLC, a wholly owned subsidiary of Invenenergy LLC. As such, the need for the project is not reviewed by the Commission.
