With its scalable and anti-corrosion capabilities, AZE's battery system can meet project requirements of varying scale and is suitable for various environmental ...

Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

With its scalable and anti-corrosion capabilities, AZE's battery system can meet project requirements of varying scale and is suitable for various environmental conditions, making it an ideal solution for grid ...

Durable Materials: Choose from galvanized steel, stainless steel, or aluminum for superior corrosion resistance and longevity. **Robust Ratings:** Available in IP55, IP65, NEMA 3R, NEMA 4, and NEMA ...

Our advanced powder coating process includes a six-stage pretreatment system that ensures maximum adhesion and corrosion resistance, surpassing Telcordia standards.

Our advanced powder coating process includes a six-stage pretreatment system that ensures maximum adhesion and corrosion resistance, surpassing Telcordia ...

Durability: AZE's outdoor enclosures and telecom cabinets are constructed from high-quality materials, ensuring resistance to weather, corrosion, and physical damage.

Built from galvanized or stainless steel materials, the cabinet achieves IP54 to IP65 ingress protection, effectively isolating internal power components from moisture, dust, and corrosion.
