Let's face it - our power grids are like grumpy toddlers. They get overwhelmed during peak hours (think 5 PM when everyone's microwaving dinner and charging EVs) but bored at 3 AM. Enter the 120kWh ...

Utilising vast flat expanses of roof and long stretches of unused land, solar panels and energy storage solutions at Adelaide Airport -- including the largest rooftop solar system in any ...

Discover the 120kWh Micro-grid Air-cooled ESS -- a modular, all-in-one battery energy storage system for commercial and industrial applications. On-grid/off-grid support, smart monitoring, and certified ...

We partnered with Aussie start-up Relectrify to repurpose 9 Nissan Leaf packs to create a 120kWh energy storage system that effectively takes our facility off grid.

Optimise your power usage with our battery energy storage system, seamlessly integrates with generators and solar energy. Enjoy lower emissions and reduced noise for a more efficient and ...

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a ...

Through advanced forecasting technologies, smart grid solutions, and strategic energy storage deployment, we're witnessing the evolution of a ...

Initiated in 2017 and developed by French renewable energy company Neoen in partnership with Tesla, Hornsdale has become a flagship project for the integration of large-scale ...
