What are FM approved chemical storage buildings?

FM Approved Chemical Storage Buildings are structures that offer safe and compliant hazardous material storage solutions. They are available in lengths up to 52' and include a built-in compliant sump. Buildings are delivered by truck and require a fork lift or crane for removal, as well as properly engineered concrete pad for securing the unit.

What are flammable storage cabinets?

Flammable storage cabinets are specialized equipment used to store flammable items, featuring fireproof, explosion-proof, and sealing characteristics that can effectively ensure workplace safety. Thro...
