What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is a minifort & small telco enclosure?

Compact Network Deployments: The MiniFort and Small Telco enclosures provide secure termination and equipment housing for smaller installations, requiring pole, ground, or wall mounting with minimal footprint. Flexibility defines every telecom cabinet we manufacture.

The products are mainly used in various outdoor scenes such as roofs, street sides, venues, mountain areas, railway lines, and high and low temperature environments.

Our outdoor telecom enclosures offer superior protection with IP65/IP66 weatherproof ratings, constructed from premium stainless steel or aluminum. ...

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.
