Is an IP55 electrical enclosure suitable for outdoor use?

Normally, IP55 electrical enclosure provides moderate protection against dust and water, making it suitable for outdoor use in relatively harsh environments where the unit may be exposed to weather conditions, but cannot be sprayed directly with water or submerged in water.

Where can I find IP55 enclosures?

Find IP55 enclosures at Bison Profab, offering reliable protection against dust and low-pressure water jets. Learn about IP55 specifications and ideal uses.

What is a KDMFAB IP55 enclosure?

With mounting flexibility, corrosion resistance, and potential for customization, KDMFAB IP55 enclosures are suitable for diverse environments, including outdoor and industrial settings, where reliable equipment protection is paramount.

What is a standardized IP55 protection code?

The IEC's standardized International (or Ingress) Protection Code system is used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit). Continue reading to learn more about IP55 Standard Protection Specifications.
