What is an IP54 server cabinet?

An IP54 server cabinet from Lehmann IT offers excellent protection for your IT equipment against all external influences. In our range, you will find a wide selection of different models - from a simple wall-mounted enclosure to complex industrial cabinets. What are the benefits of an IP54 server cabinet?

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

What are IP cabinets used for?

Perfect for the use in indoor and outdoor areas such as industrial environments, damp and humid spaces, as well as for telecommunication and wide area (FTTx) networks. Our high quality IP cabinet variants protect your sensitive instruments from dust, moisture, dirt, and unauthorised access.

What is included in a prism Pi IP54 cabinet?

All Prism PI IP54 cabinets are supplied with a 100mm plinth with protected cable entry as well as transport only castors. Fan units can be easily removed and replaced to extend the life of the unit. Solid metal, glass and wardrobe options available. Other colour options are available, please give us a call.

This range of 'Prism PI Cabinets has been designed to provide Ingress Protection to an IP54 rating and is ideal for installation within areas of high dust and moisture.
