What is California's energy storage procurement framework?

California's energy storage ecosystem, built since Assembly Bill 2514 and through 2021, includes a crucial component: the PU's Energy Storage Procurement Framework. This framework motivates the development of both demand and supply in the energy storage marketplace.

What does the PU's Energy Storage Procurement Framework do?

The PU's Energy Storage Procurement Framework provides crucial motivation to the development of both demand and supply in this marketplace. Since the time of Assembly Bill 2514 and through 2021 California built a rich ecosystem for energy storage research and development, commercialization, and project deployment.

Where can I find a California energy storage procurement study?

You can find the California Public Utilities Commission Energy Storage Procurement Study at The study was prepared by Lumen Energy Strategy, LLC for the California Public Utilities Commission and was released on May 31, 2023.

Is California a prudency review of energy storage resource procurement?

This study's analytical approach builds upon and expands California's evaluation methodologies across four dimensions. The historical evaluation in our report is not intended to be--nor would it be correctly interpreted as--a prudency review of any individual energy storage resource procurement.

With projects like State Grid Gansu's 291kWh solid-state battery cabinet procurement (¥645,000 budget) [1] and Southern Power Grid's 25MWh liquid-cooled cabinet framework tender ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase ...

California's journey with energy storage development included substantial investment in the innovation process. This necessitates learning from pilots, demonstration projects, and early ...

Bid on readily available Energy Storage contracts with the best and most comprehensive government procurement platform, since 2002. Bidding for Energy Storage RFPs is extremely ...

the procurement system for energy storage projects. That rapid expansion holds risk. Batteries are complex
