We are proud to offer you the most advanced energy storage systems on the market. With extensive experience and a reputation built over the years, we are here to provide you with high-quality ...

As we begin to deploy 2 advanced battery storage facilities based on Gotion's technology - in partnership with Lahav Energy, Beresheet, and Dr Shay Dantzinger, we're thrilled to add this...

Designed for the Israeli climate, it offers high performance, long-term durability, and an efficient solution for homeowners seeking energy independence and lower electricity costs.

The installation of this high-voltage energy storage system in Israel highlights the versatility and effectiveness of GSL Energy's solutions in real-world applications.

In Israel, where solar energy potential is abundant, residential energy storage systems are becoming increasingly popular, especially in off-grid or remote areas.

From stabilizing electric grids in Europe to providing reliable renewable energy in remote locations across Africa and Asia, Israeli storage solutions are proving their value in diverse operating ...

Whether you're connected to the grid or fully off-grid, the system works seamlessly to store solar energy, reduce electricity bills, and ensure continuous operation -- even during power outages.

To help Israel's industrial and commercial energy transition, GSL Energy and Deye have jointly created a highly efficient and flexible energy storage demonstration project.
