The Pure Battery Pack is designed and built using cylindrical lithium-ion batteries from a top-tier supplier, and include active thermal management, for performance and long life.

The Naked Battery Pack delivers raw lithium power without the shell. Built for full control, durability, and American-grade engineering. Pure energy, no limits.

This Li-Ion battery pack is maintenance free, and has a longer run time with a shorter recovery time than equivalent lead acid battery packs. It weighs 70% less and takes 60% less space ...

The new pack was designed in-house, using lithium-ion cells from Panasonic. When combined with the company's Pure Outboard motor, the battery is said to provide more power per ...

Our patented Pure Watercraft Battery Pack system delivers the most energy per pound of any battery pack in marine, and typically greater energy per pound as ...

The Pure Outboard emits no exhaust or noxious fumes, spills no oil or gas into the water, and is whisper quiet. It starts at the touch of a button, is immediately ready to drive, and charges ...

High-performance lithium battery packs made in the USA. Designed for e-bikes, scooters, robotics, medical, industrial, military projects, and much more.

Integrated EV/PHEV/HEV battery packs for cars offer high power density, compatibility, ultra-fast charging, long lasting
