Does San Jose's power have PG&E?

No. San Jose's Power will only be responsible for new accounts in a select area of the city, providing both generation and delivery. PG&E will continue to be responsible for delivery for SJCE customers. How are San Jose's Clean Energy and San Jose's Power different? Both entities are run by the City's Energy Department.

Should San Jose's buy more power?

In San Jose's, city energy officials say they are reluctant to procure additional power until they know which projects will actually be built. "We do not want to buy more power than we need," said panelist Lori Mitchell, director of San Jose's Clean Energy, the city's publicly owned electricity provider. "That's job No. 1."

Will San Jose's launch its own public utility?

San Jose's is exploring the launch of its own public utility. City Council unanimously approved the creation of San Jose's Power in 2023. The decision allows the Energy Department to explore tapping into two high voltage transmission lines set to run through the city in 2028.

How can San Jose's power help solve a power outage?

Public utilities have a better track record for addressing power outages quickly because their operations are local. San Jose's Power could also create innovative microgrids (or on-site renewable energy generation and storage sites) that help keep the lights on for important facilities like hospitals and emergency operation centers.

Getting your San Jose distributed energy storage system quote is more than price shopping - it's about finding solutions tailored to California's unique energy landscape.
