Our expertise in utility-scale solar power generation, custom folding containers, and advanced energy storage solutions ensures reliable performance for various applications.

The system has been productized, incorporating various components including energy storage batteries, PCS (Power Conversion System), distribution, temperature control, fire prevention, water-immersed ...

Our professional team ensures that each energy storage cabinet meets high quality standards, ensuring stable deliveries that meet customer expectations from ...

This model SES-90K-NA/EX Outdoor Cabinet BESS power storage is a pre-engineered system designed to be placed outdoors for various applications, such as solar power systems, backup power ...

We bring unparalleled expertise in manufacturing, supply chain optimization, and cutting-edge R& D to meticulously optimize every aspect of your operations, from product development to distribution.

That's precisely what Sana energy storage cabinets deliver. From solar farms to manufacturing plants, these systems bridge the gap between energy supply and demand with surgical precision.

SOFAR Energy Storage Cabinet adopts a modular design and supports flexible expansion of AC and DC capacity; the maximum parallel power of 6 cabinets on the AC side covers 215kW

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...
