Are energy storage products coming to Brazil?

Holu's Costa observed batteries were prominent during the Intersolar South America trade show held in S&#227;o Paulo at the end of August 2024. She added,hundreds of manufacturers are bringing energy storage products to Brazil.

Should Brazil invest in energy storage?

Brazil's energy storage sector must attract R47 billion (\$7 billion) in investments by 2030, according to the Brazilian Energy Storage Solutions Association (Absae). Stakeholders are in the process of creating a regulatory framework for energy storage.

What is the panorama of storage in Brazil?

The launch of the Panorama of Storage in Brazil marked a breakthrough in technical discussions and symbolized the beginning of a new era for the Brazilian electricity sector. With its eyes on the regulatory framework, the storage market has the potential to be one of the great drivers of the national energy transition.

How would a storage plant auction work in Brazil?

The electricity supplied by storage facilities would be settled on Brazil's short-term energy market and paid into the Power Account for Capacity Reserve. Contracted volumes of energy would be settled without price risk to the storage plant operator. "In practice,the auction offers a model with an attractive risk-return ratio," said CELA's Ramos.
