The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery energy storage in Tunisia. The deadline for applications is ...

This article explores how modern solar power generation paired with smart storage technology addresses Macedonia's growing energy demands while supporting EU sustainability targets.

The project includes a planned 36 MW/h BESS, designed to store and manage electrical energy, enhancing the reliability and integration of renewable energy sources into the grid.

But hold onto your solar panels, because North Macedonia's capital is quietly becoming a photovoltaic energy storage pioneer. With 270+ sunny days annually and rising ...

In this paper, we propose a dynamic energy management system (EMS) for a solar-and-energy storage-integrated charging station, taking into consideration EV charging demand, solar ...

PiKCELL Group, in partnership with Solar Power, has unveiled a plant to produce solar photovoltaic (PV) and thermal panels in Skopje, the Macedonian media reported.

Skopje solar thermal storage production PiKCELL Group, in partnership with Solar Power, has unveiled a plant to produce solar photovoltaic (PV) and thermal panels in Skopje, the ...

Slovenia-based GEN-I connected its 17 MW solar power plant southeast of Skopje to the grid four months before the deadline. It is the largest photovoltaic facility in North Macedonia and the ...
