The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

In Skopje, where energy storage business opportunities are surging faster than a Tesla battery's charge rate, companies are racing to solve one critical question: How do we keep the lights on when the sun ...

With 60% lower land costs than Western Europe and streamlined regulations, the Balkans are becoming an energy storage hotspot. SunContainer Innovations, a key technology partner in similar projects, ...

Welcome to Solar Energy, where you can find the best solutions for starting your journey towards energy independence. Our mission is clear: to accelerate the transition to a renewable energy future by ...

Overview The new photovoltaic system, the largest in the country, is located southeast of the capital Skopje. GEN-I Skopje, a subsidiary of Slovenia-based GEN-I, won the right to build it in 2019, at a ...

Imagine if your factory could become an energy hub--storing midday solar excess and selling it back at evening peaks. That's not sci-fi; it's Tuesday at 2 PM for our clients in Skopje's industrial zone.

Let's face it - the sun doesn't work a 9-to-5 schedule, but your business definitely does. That's where Skopje's solar energy storage engineering wizards come into play. Our primary ...

Overview The new photovoltaic system, the largest in the country, is located southeast of the capital Skopje. GEN-I Skopje, a subsidiary of Slovenia-based GEN-I, won the right to build it in ...
