The \$5 billion Skopje energy storage project, one of Europe's largest battery-based initiatives, has officially broken ground. This isn't just about storing electricity - it's a masterclass in solving ...

From project planning, through installation and commissioning we are committed to provide long-lasting solutions so our clients can continue to do what they do best without being interrupted ...

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

From project planning, through installation and commissioning we are committed to provide long-lasting solutions so our clients can continue to do what they do best without being interrupted by power ...

A containerized system acts as a massive Uninterruptible Power Supply (UPS), keeping operations running smoothly until grid power is restored or diesel generators kick in.

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without ...

We are committed to excellence in solar power plants and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in ...

We are committed to excellence in solar power plants and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar ...
