How do you pay for a solar system?

There are three main ways to pay for your home solar system: upfront with cash, a solar loan, or through a lease or power purchase agreement (PPA). If you can't afford to pay for your system out of pocket--or don't want to tie up that capital--solar financing allows you to spread the cost over time through a loan or lease.

How much money can a home solar system save?

Most homeowners save around \$50,000 over 25 years. What are your solar financing options? There are three main ways to pay for your home solar system: upfront with cash, a solar loan, or through a lease or power purchase agreement (PPA).

Should I pay cash upfront for my Home Solar System?

Paying cash upfront for your home solar system maximizes both financial and environmental benefits, and it comes with the advantage of ownership if it's within your budget. If not, low-interest loans are a strong alternative, preserving ownership benefits while balancing immediate affordability with long-term gains.

Should you pay for a solar energy system with cash?

Some homeowners opt to purchase their solar energy systems with cash, forgoing the need for loans or payment plans. While this is a major investment, there are solid benefits to paying for a solar energy system with cash. Pros
