Our team of over 30 engineers can provide customized one-stop solutions for battery management systems, ensuring seamless cooperation between the ...

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical ...

Whether you're a solar installer, business owner, or energy consultant, this advanced storage system offers the reliability and intelligence needed for the future.

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface.

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control system, fire control system, temperature control system and monitoring system.

Configured with a rack-mounted modular PCS, it supports parallel connection of multiple machines and has good scalability; the number of PCS modules and the total battery power can be selected ...

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Industrial-grade lithium ion battery cabinet featuring advanced thermal management, intelligent BMS, and modular design for reliable, scalable energy storage solutions. Ideal for renewable energy ...
