What is a Megatron 1500V 373kwh Battery Cabinet?

MEGATRON 1500V 373kWh liquid-cooled energy storage battery cabinets are an integrated high energy density, long lasting, battery energy storage system. Each battery cabinet includes an IP56 battery rack system, battery management system (BMS), fire suppression system (FSS), HVAC thermal management system and auxiliary distribution system.

Can a 373kwh rack system be paired with a 1500V PCS inverter?

373kWh rack systems can be paired with 1500V PCS inverters to complete fully functioning battery energy storage systems. The battery pack, string and cabinets are certified by TUV to align with IEC/UL standards of UL 9540A, UL 1973, IEC 62619 etc.

What is included in a battery cabinet?

Each battery cabinet includes an IP56 battery rack system, battery management system (BMS), fire suppression system (FSS), HVAC thermal management system and auxiliary distribution system. Outdoor liquid cooled cabinets can be paired together utilizing a high voltage/current battery combiner box.

How many 373kwh cabinets can be installed together?

Multiple 373kWh cabinets can be installed together creating up to 4472kWh energy storage blocks. Designed for 373kWh's to 100MWh+ systems. Each 373kW liquid cooled outdoor cabinet solution is pre-engineered and manufactured to be ready to install.

Founded in 2009, SineSunEnergy has been focusing on lithium battery energy storage product development and application, providing leading lithium battery ...

Unlocks the potential of renewable energy applications with compact, powerful solution, designed for optimal performance and sustainability. Features sophisticated integration for seamless operation ...

As a leader in solar power station, NAMKOO POWER is committed to building high-quality solar power station and setting up industry. Namkoo provides one-stop service for design, procurement, ...
