What is the market share of lead acid batteries in Southeast Asia?

Lead acid batteries continue to dominate the Southeast Asian battery market, holding approximately 65% market share in 2024. This dominance is primarily driven by the automotive industry and data centers, which extensively use lead acid batteries for power storage applications.

Which data center industry favors lead acid batteries?

The data center industry in Southeast Asia particularly favors lead acid batteries, though recent technological advancements and declining costs of alternative technologies are beginning to influence the market dynamics.

What is the structure of the Southeast Asian battery market?

The Southeast Asian battery market exhibits a moderately consolidated structure with global conglomerates holding significant market share while regional players maintain a strong local presence through specialized product offerings and established distribution networks.

What are the key players in the Southeast Asian battery market?

The Southeast Asian battery market features prominent global players like BYD Company, Tesla, GS Yuasa, Panasonic, and Samsung SDI alongside regional specialists. These companies are increasingly focusing on product innovation, particularly in lithium-ion technology and energy storage solutions for renewable integration.
