The Energy Storage Summit Australia returns to Sydney in 2026, continuing to drive conversations around Australia's transition to 100% renewables and its emergence as a global green superpower.

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).

We're proud to partner with Zhiguang Electric, a global leader in energy storage. Together, we bring high-performance, liquid-cooled BESS solutions to the Australian market, certified and proven across ...

Discover how liquid-cooled outdoor energy cabinets enhance green energy solar systems, hybrid power stations, and energy management.

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and ...

Absen's Cube liquid cooling battery cabinet is an innovative distributed energy storage system for commercial and industrial applications. It comes with ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure ...
