What is east valve regulated sealed lead-acid battery?

EAST Valve-regulated sealed lead-acid battery is featured with high energy, long life, zero pollution, maintenance-free and safety. It adapts modern updated design, manufacturing process, advanced lead-calcium electrode plate, super-fine glass fiber separators and air-proof design.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

- Designed according to the specific UPS model for easy connections, correct recharge current and appropriate discharge rating to optimize battery life. - Modular hot-swap battery cabinets with string ...
