What is a VRLA battery cabinet?

They are designed to accommodate standard Valve Regulated Lead Acid(VRLA) batteries with a capacity range of 24Ah to 105Ah (C10). The battery cabinets are available in five different mechanical dimensions.

What is a datasafe HX Battery Cabinet?

The HX battery cabinet offering now makes the DataSafe HX battery the ideal choice to optimize your UPS system installation,while offering flexibility in allowing customized options enabling you to design the perfect system for your particular application. DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time.

What are the construction characteristics of recombination type lead-acid electric accumulators (valve-regulated Hermetic)?

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous developmentallows it to be installed in suitable containment cabinets.

What is a datasafe Xe Battery Cabinet?

DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time. The cabinet design optimizes the overall footprint. DataSafe XE batteries,manufactured with Thin Plate Pure Lead (TPPL) technology,are specifically designed for shorter duration autonomies.
