How important are nodes in CR Express transport network?

Moscow ranks the first in the node's importance in the CR express transport network; Guangzhou and Beihai rank the top two seaport nodes. This paper confirms the accuracy and practicability of the structural hole theory in the importance ranking of nodes in the complex network.

How much money do Chinese enterprises invest in the Belt & Road?

According to these data, Chinese enterprises invested about USD29.5 billion in non-financial direct investments in countries "along the Belt and Road". At the same time, the value of newly-signed project contracts by Chinese enterprises in the "Belt and Road" countries was USD113 billion, as well as 700 aid projects.

Does the Belt & Road Initiative affect global climate?

The Belt and Road Initiative (BRI), initially proposed by China in Fall 2013, involves large-scale development of infrastructure, including energy infrastructure, in Asia, Europe, and Africa, and thus has the potential to affect global climate.

What if a transmission line is below a railroad bed?

In cases where the base of the transmission line is below that of the railroad bed, the designer may be required to install taller poles or to offset further from the track (using the agency suggested approach) than is indicated by the NESC clearance envelope. (4) Lines Over Swimming Pools.

By the end of September 2023, 13 Chinese-funded banks had set up more than 145 primary branches in 50 countries along the B& R, while a total of ...
